

Parts of a Rabbit

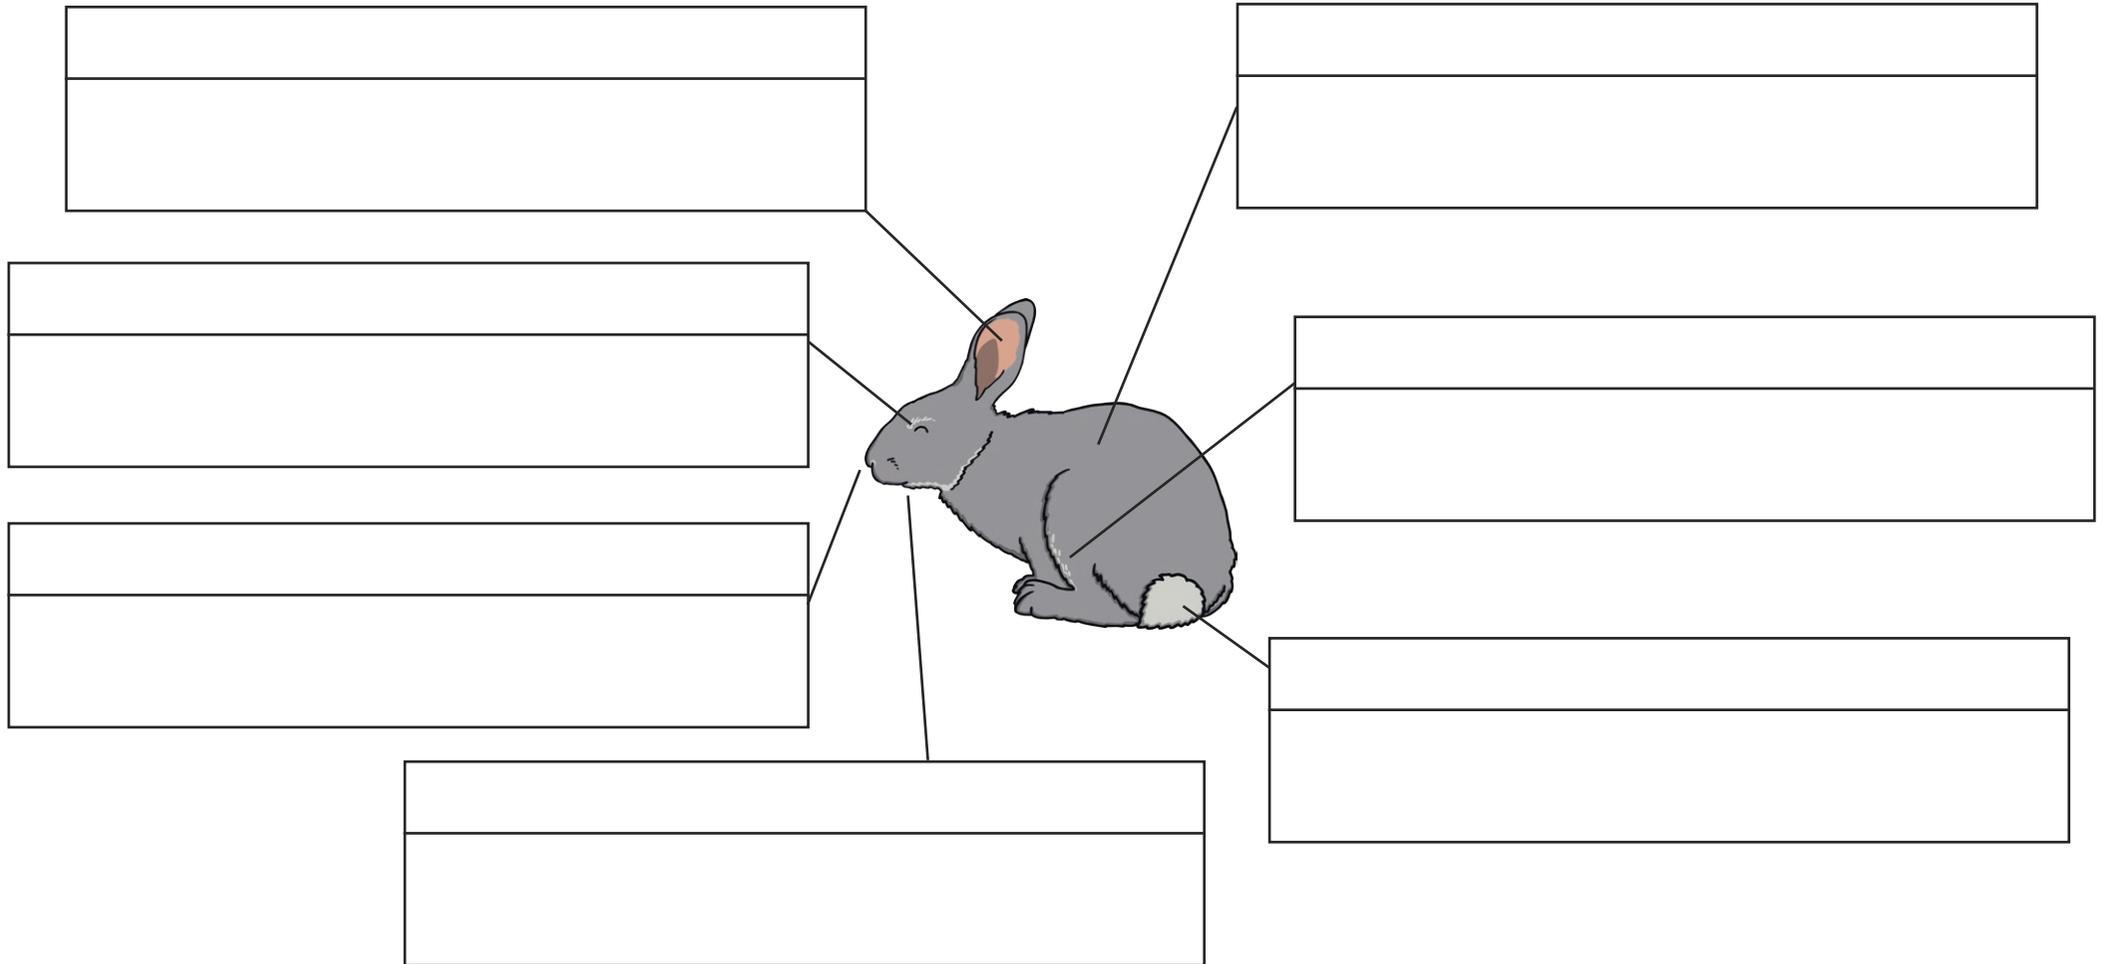

Cut and stick the parts of a rabbit to complete the diagram.

tail	nose	eye	fur
mouth	ear	hind leg	

Parts of a Rabbit

Label the parts of the rabbit using the words at the bottom of the sheet. Cut and stick the descriptions in the right place.

tail nose eye fur mouth ear hind leg

<p>This helps the rabbit to hear sounds from a long way away.</p> <p><small>twinkl.com</small></p>	<p>This keeps the rabbit warm and dry.</p> <p><small>twinkl.com</small></p>
<p>These are very strong, and help the rabbit to hop.</p> <p><small>twinkl.com</small></p>	<p>This helps the rabbit to breathe and smell things. Rabbits have a brilliant sense of smell.</p> <p><small>twinkl.com</small></p>
<p>These are on the side of the rabbit's head so it can see as much as possible.</p> <p><small>twinkl.com</small></p>	<p>This is fluffy and white. It helps confuse predators chasing the rabbit, so it can escape.</p> <p><small>twinkl.com</small></p>
<p>The rabbit's teeth are found here. Their teeth grow all the time.</p> <p><small>twinkl.com</small></p>	

Parts of a Rabbit

Label the parts of the rabbit using the words at the bottom of the sheet. Write a description of each body part.

tail nose eye fur mouth ear hind leg

Use these words to help you write your descriptions.

white fluffy see long teeth grow hear smell sniff sensitive strong hop
